To Whom It May Concern

I am pleased to write this letter of recommendation for **Shekhar Chatterjee**. He is one of the best students of our school. He has been a model student and I am confident that he would do well wherever he would go. **Shekhar** was actively involved in extracurricular activities and encouraged many students to take part in them. He has always been the student to whom all the junior students would look up to.

While interacting with **Shekhar**, I noted that Shekhar's interactions with fellow students were friendly and demonstrated genuine warmth, care and respect for other students. **Shekhar** has exceptional organizational skills, and demonstrates maturity and responsibility, balancing school, work and career with a positive bent of mind. He has an ability to build healthy discussions with positivity, and thereby increasing the learning scope for his peers. His skills, knowledge and achievements have continuously made us proud. He is an active participant in the co-curricular activities and his capacity to think "out-of-the-box" makes him more creative and presents a strong reason for writing this recommendation.

To conclude, I am pleased to recommend **Shekhar Chatterjee** to your esteemed university for his higher studies. For any further query regarding this letter, feel free to contact me.

Warm Regards

A. K. Sinha
